SUMMARY

Full Stack Developer with 3+ years of professional experience building visually polished, animated, and fully responsive web applications using PHP / Laravel on the backend and React.js / Next.js / TypeScript on the frontend.

Specialized in crafting smooth, mobile-first interfaces with Framer Motion, GSAP, and CSS animations — delivering 60fps transitions, scroll-triggered effects, and pixel-perfect layouts across all screen sizes. Comfortable owning the full product cycle from database design to interactive, production-ready UI.

WORK EXPERIENCE

TGI Pakistan

03/07/2023 – Present

Full Stack Developer (PHP Laravel + React / Next.js)

- Built and maintained Laravel REST APIs consumed by React/Next.js frontends — covering auth (Sanctum / Passport), role-based access control, and resource controllers.
- Designed relational schemas in MySQL / MSSQL; wrote Eloquent models, migrations, and complex query scopes for reporting modules.
- Developed animated, responsive UIs using Framer Motion and CSS animations — scroll-triggered reveals, page transitions, hover micro-interactions, and staggered list animations.
- Built mobile-first responsive layouts using Tailwind CSS, CSS Grid, and Flexbox; ensured pixel-perfect consistency across all breakpoints and browsers.
- Created reusable UI component libraries with ShadCN UI, MUI, and PrimeReact — maintaining consistent design systems with smooth animation primitives.
- Integrated AI language model APIs to build AI-assisted product features including streaming chat interfaces and structured output pipelines.
- Collaborated on full product UI from Figma designs to production — translating wireframes and mockups into fully animated, accessible, responsive components.
- Used GitHub Copilot and advanced AI coding assistants in an agentic development workflow to accelerate feature delivery.

Pak Soft Technology

16/12/2022 – 31/05/2023

Intern Software Engineer

- Built dynamic web applications using React.js and contributed to PHP backend modules.
- Developed pixel-perfect, fully responsive UIs with HTML, CSS, and JavaScript.
- Optimised component rendering and implemented smooth CSS transitions for improved user experience.

PROJECTS

CareerDots – AI Career Guidance Platform

2025 – Present

- Architected a full-stack platform with a Laravel PHP backend (REST API, MySQL, Sanctum auth) and a Next.js / TypeScript frontend.
- Built fully animated, responsive dashboard UI with Framer Motion page transitions, skeleton loaders, and smooth state-change animations.
- Integrated AI language model APIs for career-matching, scholarship recommendations, and personalized action plan generation.
- Designed system prompts, JSON schema outputs, and multi-turn conversation state for AI workflows.

DocLinQ – Healthcare Management Platform

03/10/2024 – Present

- Delivered role-based, fully responsive dashboards (Doctors, Patients, Front Desk, Practice Management) using React.js, PrimeReact, MUI, PrimeFlex.
- Built reusable animated UI components with smooth transitions for appointment scheduling, billing, and patient record workflows.
- Integrated live backend APIs for real-time data updates with optimistic UI and loading state animations.

Tom Howley – Luxury Bespoke Kitchens (UK)

tomhowley.co.uk

- Built a premium WordPress site for a nationally trusted UK luxury kitchen brand with multiple showrooms; focused on high-end visuals and smooth browsing experience.
- Implemented fully responsive layouts with polished gallery sections, collection pages, and mobile-first navigation.

Softriver – Brand & Logo Design Agency

softriver.co

- Developed a high-converting WordPress website for a global branding agency serving 30,000+ clients; strong visual hierarchy, pricing tables, and testimonial sections.
- Optimised for performance and responsive design across devices with clean, fast-loading pages.

Corporate Diversity Pathways – DEI Consultancy (AU)

corporatediversitypathways.com.au

- Built a professional WordPress site for Australia's leading Diversity, Equity & Inclusion consultancy; clean corporate design with team profiles, service pages, and responsive layout.

Sokolov Zamak – Serbian Family Winery

sokolovzamak.rs

- Designed and developed a visually rich WordPress e-commerce site for a premium Serbian winery; product catalogue, shop integration, and fully responsive design in Serbian.

Dara Reinigung – Cleaning Services (Switzerland)

dara-reinigung.ch

- Built a clean, mobile-first WordPress site for a Zürich-based cleaning company; service listings, contact/booking section, testimonials, and Google Maps integration in German.

Safr Care – Care Services Platform

safrcare.com

- Developed a responsive WordPress website for a care services provider; clean layout with service pages, team section, and mobile-optimised design.

SKILLS

Project Management: Agile Delivery, Scrum, Sprint Planning, Roadmap Execution, Stakeholder Communication, Team Coordination

Backend: PHP, Laravel, REST API, Eloquent ORM, Sanctum, Artisan

Design Tools: Figma (Design-to-Code), Component Systems, Design Tokens

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, ShadCN UI, MUI, PrimeReact

Delivery & Leadership: Project Planning, Risk Management, Issue Resolution, Cross-functional Leadership, Client Handling, Milestone Tracking

Animation & Motion: Framer Motion, GSAP, CSS Animations & Transitions, Scroll-triggered Effects, Page Transitions, Micro-interactions

AI Integration: Language Model APIs, Streaming Interfaces, Prompt Engineering

Responsive Design: Mobile-First Development, CSS Grid, Flexbox, Cross-browser Compatibility, Fluid Layouts, Breakpoint Systems

Databases: MySQL, MSSQL, MongoDB,
Eloquent Migrations

Tools: Git, GitHub, Vite, Postman, GitHub Copilot,
Agile / Scrum

EDUCATION

Lahore Garrison University

BS Computer Science

Gold Medalist – Graduated with distinction, awarded Gold Medal for academic excellence.

10/10/2020 – 16/07/2024

AWARDS

- Gold Medal – Lahore Garrison University | Awarded Gold Medal for graduating with the highest academic distinction.
- Vice Chancellor's Award – Lahore Garrison University | 1× Vice Chancellor's Award & 4× Dean's Award for academic excellence and leadership.
